Supplementary Material

1 Uncertainty Estimation of DWIs with different b-values

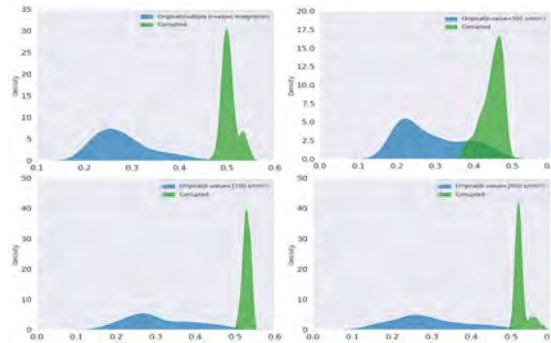

Fig. 1. Uncertainty estimation of DWIs with b-value = 500, 1500 and 2000 s/mm^2 and integration.

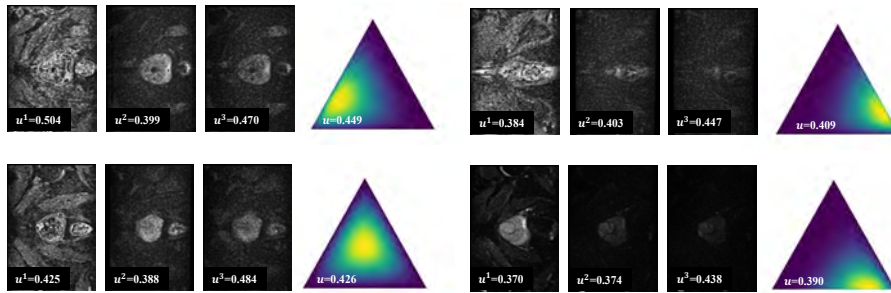

Fig. 2. Typical samples. u^1, u^2 and u^3 correspond to DWIs with b-value = 500, 1500 and 2000 s/mm^2, respectively.
